

THE BEST WAY TO BUILD OUT A GREAT COMPANY Is From Within

While most PE firms build value through leverage and cutting costs, we grow businesses organically—from the inside out. We believe in collaboration—

guiding our CEOs, not commanding them.

We nurture the culture and champion expansion. We support the development of new high-value solutions and

investment in talent management capabilities. We never forget that the most valuable assets are the ones that walk out the door every night.

And from 35+ years of successful experience, we know that great relationships and the best ideas ultimately drive revenue and equity value and help entrepreneurs realize their dreams.

When You Partner With RLH, You Get:

- A 35+ year referenceable heritage of fulfilled commitments.
- A cohesive team averaging 19 years of private equity experience and 13 years at our firm.
- The RLH Playbook, a proprietary system for helping our companies become more valuable—a proven framework for repeatable operating success based on our decades of experience.
