## Why RLH?

RLH invests in rapidly growing companies that deliver high-value solutions and services to business, healthcare, and government clients. Our investments support firms whose primary assets are uncommonly talented people and whose management has built a culture that consistently attracts and retains those individuals. We provide capital and assist management teams as they navigate opportunities and challenges of driving rapid growth in a knowledge-based economy.

## Objective

We seek to partner with entrepreneurs whose companies provide highly valuable services — often enhanced by software — to design, implement, monitor and manage programs that keep their clients at the forefront of ethical, responsible, secure and legally compliant business practices.
